Metaphor and Figurative Language

CRITICAL CONCEPTS IN LINGUISTICS

Edited and with a new introduction by Patrick Hanks, Charles University, Czech Republic and Rachel Giora, Tel Aviv University, Israel

With contributions from Aristotle to Lakoff and incorporating the work of philosophers, linguists, literary theorists, and cognitive psychologists, this wide-ranging and multidisciplinary six-volume collection on metaphor and figurative language is a new title from Routledge’s Critical Concepts in Linguistics series.

Metaphor and Figurative Language is fully indexed and has a comprehensive introduction, newly written by the editors, which places the collected material in its historical and intellectual context. It is an essential library purchase and is destined to be valued by scholars and students as a vital reference work and research tool.
